

Amun Limited

Burn Policy relating to Inverse and Leveraged Tokens

Amun Limited is the issuer (the **Issuer**) of a number of ERC20 Tokens (the **Tokens**) providing holders with notional inverse or leveraged exposure to certain digital assets. The terms of such Tokens do not require the Issuer to accept any or all requests from holders of the Tokens to burn such Tokens but the Issuer may adopt a policy in connection therewith.

As at the date of this document, the directors of the Issuer have resolved to accept requests to burn Tokens.
